no laser: slow leak at body temperature
with heat: release in minutes
released (%)
time (h)
time (min)
Deng: siRNA from
the film (not drug)
Deng: doxorubicin
from coated liposome
our model at 37 °C
(matched at 24 h)
42 °C, lipid only
42 °C, slow wall, P = 10−8 cm/s
laser at skin limit, tumour centre
